

OREKA II VENT

HELMET

Product

Description

- Ultra-lightweight outer shell made of ABS.
- Inner shell composed of high density foam for better shock absorption and comfort.
- Includes chinstrap with interchangeable buckles for industrial or sporting use.
- Incorporates slots for visor protection, face shield, hearing protection (30mm universal slot) and back (neck) protection.
- It incorporates extra slots to add Q-IK ADAPTERS for easy mounting of accessories.
- Lateral adjustment divider on the chinstrap for a more ergonomic fit.
- ROUNDFIT system on the rear ratchet to ensure excellent helmet hold.
- 4 built-in removable lampholder holders.
- The OREKA II VENT HI-VIZ model includes high visibility stickers.
- Built-in NFC chip.
